

# TRACING LINES 7

Do you want to learn handwrite nicely and correctly? These exercises can help you. Draw over the shapes first, and then draw the same shapes until the end of the line. Draw the shapes in the direction of arrows. The direction of drawing is important for nice and fluent handwriting. Try to use correct tilt and height of shapes.

The handwriting practice sheet is divided into four main sections, each with three rows of tracing exercises:

- Section 1: Uppercase U**
  - Row 1: A series of dashed uppercase 'U' shapes for tracing, with a small arrow on the left indicating the downward direction.
  - Row 2: A solid uppercase 'U' followed by a dashed one, then a series of dots on a horizontal line.
  - Row 3: A solid uppercase 'U' followed by a dashed one, then a series of dots on a horizontal line.
- Section 2: Lowercase u**
  - Row 1: A series of dashed lowercase 'u' shapes for tracing, with a small arrow on the left indicating the downward direction.
  - Row 2: A solid lowercase 'u' followed by a dashed one, then a series of dots on a horizontal line.
  - Row 3: A solid lowercase 'u' followed by a dashed one, then a series of dots on a horizontal line.
- Section 3: Uppercase Y**
  - Row 1: A series of dashed uppercase 'Y' shapes for tracing, with a small arrow on the left indicating the downward direction.
  - Row 2: A solid uppercase 'Y' followed by a dashed one, then a series of dots on a horizontal line.
  - Row 3: A solid uppercase 'Y' followed by a dashed one, then a series of dots on a horizontal line.
- Section 4: Shape with Circle**
  - Row 1: A series of dashed shapes for tracing, each consisting of a vertical line on the left, a curve on the right, and a circle at the top. A small arrow on the left indicates the downward direction.
  - Row 2: A solid version of the shape followed by a dashed one, then a series of solid circles on a horizontal line.
